

## PROFORM PRODUCTS

### RUSTPROOFING APPLICATOR GUN'S WITH TANK

Rustproofing applicator with reservoir and Independent hoses for air and material that allows control of several spray patterns from coarse to highly atomised spraying. It has a 25' (7.5 m) hose for application without having to carry the equipment. Designed and recommended for Pro Form's rustproofing formulations. Will not apply gel type rustproofing. Includes tank, gauges, regulators, 25' (7.5 m) hose and 36" flex wand flat head and underbody nozzle.
