ATLAS TC289 Electric/Pneumatic Wheel Clamp Tire Changer w/Bead Blaster

ATEATTC289

The Atlas TC 289 wheel clamp tire changer is equipped with the revolutionary Atlas bead blast inflation system. The Bead Blaster design found on most of our Atlas tire changers provides an enormous amount of air pressure and volume (blasting air through the air holes positioned near the movable turntable jaws) to seat the beads on most stiff sidewall tires. This tremendous volume of air, directed to the inside cavity of the tire, forces both tire sidewalls to press solidly against the wheel so that the tire will "hold air".

Highlights

- Tire Inflator
- 3 Positions For Clamping Jaws
- Adjustable Bead Breaker
- 90-110 PSI
- Oiler, Filter, Regulator included
- 110v
- Beadblaster
- Outer Clamp: 12" - 28"
- Inner Clamp: 14" - 30"
- Max Wheel Width: 18.5"
- Max Tire Diameter: 47.5"
- Min Recommended Compressor: 20 Gallon with 14cfm

* Based on available sales data

Ultimax Belts Benefits:

- Provide performance quality replacement belts for the most common ATVs, UTVs & Side-by-Sides
- Each belt is designed for a specific application – No "one size fits all" approach
- Engineered with the same expertise that goes into an OE belt
- Built to handle more load and abuse than the typical OE drive belt
- Ultimax UA and XP belts are backed by a two- or three-year warranty and the easiest online warranty process** in the industry
- Ultimax belts are made in the USA

** Full warranty details can be found at www.ultimaxbelts.com/warranty.

ULTIMAX BELTS ARE DESIGNED FOR THE RIDER
WHO REFUSES TO SETTLE FOR SECOND BEST,
AND THE DEALER WHO WANTS TO KEEP THOSE RIDERS HAPPY!

Ultimax Belts Extras:

Belt-Finder, Belt Installation Videos, Social Media, Newsletter

Ultimax belts are designed to be application specific, so check out our "Belt Finder" tool to select the right Ultimax belt for your machine. Visit <http://www.ultimaxbelts.com/belt-finder> or scan the QR code to the right. Then, simply choose the make, year and model of your machine from the drop down options provided, and you'll find the perfect fit.

For installation tips check out our "How-to" videos at www.youtube.com/UltimaxBelts.

New ATV / UTV CV Axles - Designed for ATVs, UTVs and Side-by-Sides

FOLLOW US ON SOCIAL MEDIA

Engineered to be the highest quality, most reliable, and toughest CV Axles on the market.

TrakMotive New Premium ATV / UTV CV Axles are manufactured and engineered to the highest quality standards in the industry, ensuring they meet or exceed OEM manufacturers specifications in fit, form and function. All TrakMotive New ATV / UTV CV Axles are 100% brand new and manufactured in our state-of-the-art ISO 9001:2015 and IATF 16949.2016 facility.

1. OE Replacement

Up to 20% more torque than OEM axles*

- Heat treated chrome steel solid center shaft improves performance and longevity.
- High quality neoprene CR rubber dust boots have greater flexibility, heat and chemical resistance than original equipment boots.
- High performance moly grease in all axle joints provides better metal adhesion and resistance to high shock loads.
- Meets all OEM axle specifications for travel and joint articulation.

2. Heavy Duty

Handles up to 35% more torque than OEM axles*

- Heat treated chromoly steel solid center shaft has greater density and strength than chrome steel.
- Premium quality thermoplastic elastomer dust boots are stronger, more rigid, and offer increased resistance to puncture than neoprene CR rubber.
- High performance, high temperature moly grease in all axle joints provides superior protection against extreme use.
- Meets OEM travel specifications and exceeds OEM joint articulation specifications by up to 5°.

*Measured at axle breakage during testing.

PERFECT
MATCH**

**ALLOY AND STEEL
WHEELS**

Offering winter steel, OE and aftermarket rims.
We stock the most popular direct fit 16" and 17" steel rims.

INSTALLATION KITS

Make your life easier and ask for your installation kit, it is specifically designed for your car and wheels. Once your wheels are installed, simply store it in your glove compartment, so it will conveniently be ready and available for next season.

THE PERFECT MATCH

RSSW is a division of Macpek inc. ; a reference in heavy vehicle parts since 1974. At RSSW we specialize in the design and distribution of alloy and steel wheels.

With a wide variety of available models, you will find a wheel that will perfectly match your preferences, budget and vehicle.

Finally, whether it is for a touring or sports car, a pick-up truck or a SUV, we have the wheel that you need.

FIND YOUR WHEELS IN A FEW CLICKS

To make sure that the wheel you are interested in is compatible with your vehicle, visit www.rssw.com, click on « Find your wheels » and select « By vehicle ».
